

THE STORY OF FEDER BAU IS ONE OF PEOPLE DREAMS AND DEDICATION.

It all began in 1993, when Mr.Kadri Bajrami decided to leave the company he worked for, dedicating his self to a more ambitious project: the production of superior quality spring & mattresses. And so the first ever FederBau products were created in a small garage in the village Golema Recica Tetovo, North Macedonia, made with the same taste and manual skill that distinguish homeland artisans.

From Tetovo to the entire country and then onto the international market along a constant, organic and patient growth trajectory. One step at a time, with a vision rigorously focused on quality. This choice inspired significant investments in scientific research, technologies and above all people.
